

## CERTIFICATE OF CONFORMANCE

This certifies that AXON parts, on the below AXON Sales Order and Customer Purchase Order, conform to all applicable AXON specifications. The parts meet NACE MR0175 requirements for H2S service. The parts have been dimensionally inspected and tested per applicable specifications and have been found acceptable. The parts were manufactured, remanufactured or repaired conforming to the Quality Assurance System stated in the AXON Quality Manual. The Quality System for the verification, validation, monitoring, measurement, inspection and test activities has been certified to comply with Q1, 9th Edition. AXON is authorized to apply the API Monogram to equipment manufactured in accordance with API Specifications 6A, 16A, and 16C. The following API equipment specific specifications apply to this order:
