## Talk to the experts:

### What do I get?

The SGT-800 combines a simple, robust design, for high reliability and easy maintenance, with high efficiency and low emissions.

### What can it be used for ?

This set is an excellent choice for industrial power generation or oil and gas applications.

### How can it be deployed?

The exceptional simple cycle efficiency and steam-raising capability make it outstanding in cogeneration and combined cycle installations.

The SGT-800-based power plant, designed for flexible operation, is perfectly suited as grid support, too.

## Talk to us:

### What are the selling terms?

This Set will be sold „as it is and where it is“. Place of jurisdiction is Germany.

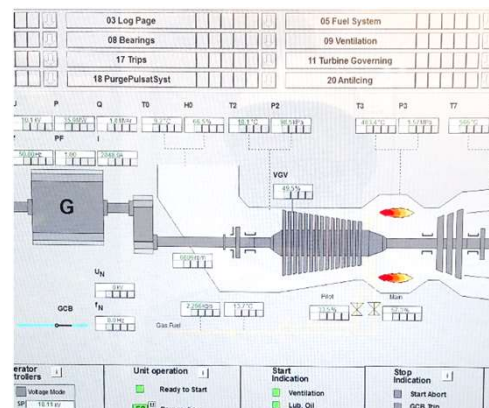

### What are the delivery terms?

The set will be sold “Free On Beard” at a typical oversea’s port like Hamburg or Rotterdam.

### What about a reservation?

A reservation period for more detailed assessment by the buyer is negotiable.

Note: A second SIEMENS SGT-800 is available for sale, too.
